Intrado Studio provides companies with a simple and cost-effective solution to deliver powerful audio and video presentations to a global audience. With live, simulive, and on-demand broadcasting options, you have the power to control when and how your content is delivered.

The interactive interface enhances the viewer’s experience by giving you the flexibility to customize the look and feel of your webcast layout. Interactivity tools such as, live chat, Q&A and polling questions are just a few of the features that keep your audience engaged. Real-time reporting and analytics dashboards give you the data you need to maximize the effectiveness of your programs.

With the industry’s leading mobile experience, our platform is designed to support all users anytime, anywhere and from any device.

Information to Insight
Common Pain Points

Whether you’re hosting your first webcast or looking to upgrade to a new solution – you’re not alone. Our diverse customers share one thing in common – they all have challenges made worse by costly and/or ineffective communications which lead to some of these pain points:

- Poor audience retention
- Inconsistent messaging
- Inability to measure impact
- Multiple communication tools
- Slow time to market
- Incremental revenue growth
- Rising costs in travel and accessibility to key stakeholders
- Dispersed audience
- Lack of engagement

For more information about Intrado Studio, please visit www.inxpo.com/webcasts, email us at contactus@inxpo.com or call us at (312) 962-3708.
Intrado Studio can be used stand-alone or within a Virtual Event experience. Intrado Studio can provide you with the resources and tools that will allow you to deliver engaging content to audiences around the world with a click of a button.

Benefits of Intrado Studio:

- **Cost Savings With Cloud Communications**: Broadcast live or pre-recorded content through the “studio in the cloud” to avoid the need for high-cost production studios and equipment.

- **Global Scale**: Communicate effectively and authentically to a dispersed audience that might not be able to travel or attend physical events.

- **Simple Delivery and Syndication**: Stream with a click of a button to several destinations at once including social channels and OTT devices.

- **Enterprise Ready Integrations**: Integrate easily with other enterprise software solutions for a streamlined technology stack.

Metrics Dashboard

Gain valuable insights into your target audience by capturing multiple user touchpoints, including profile information and attendee interactivity.

More effective campaigns are delivered by the multi-dimensional view of a user’s content interests and social engagements, derived from all the actions the user took in a webcast. These valuable insights help you better understand your audience, enable smarter follow-up and help you qualify your leads to increase the success of your campaigns.
